

## A+

### On line credit recovery program

- You will need to speak to your counselor if you would like to take an A+ class.
- Students are en- rolled at the beginning of each 6 week grading period.
- Once en-rolled, students will work independently to complete each class, logging on for a minimum of 1 hour daily.
- The final exam must be taken on campus.
- The more time you dedicate to your class the quicker you can finish. Students can take as many classes as needed, working on one or two at a time.
- Because the A+ program is internet based, students can work anytime, day or night and on weekends. High speed internet is recommended for the program to work efficiently.
- If you have any questions or need help once you begin a class, please e-mail Ms. Negron at [pnegron@yumaed.org](mailto:pnegron@yumaed.org).
